

Cochrane Valley Montessori School (CVMS) - A.0307

Three Year Education Plan 2024-2025 to 2026-2027

21st Century Framework for Student Learning

Accountability Statement

The Education Plan for 1620215 Alberta Ltd. o/a Cochrane Valley Montessori School commencing September 1, 2024 was prepared under the direction of the Board/Board of Directors in accordance with the responsibilities under the *Private Schools Regulation* and the *Education Grants Regulation*. This plan was developed in the context of the provincial government's business and fiscal plans. The Board has used its performance results to develop the plan and is committed to implementing the strategies contained within the plan to improve student learning and results.

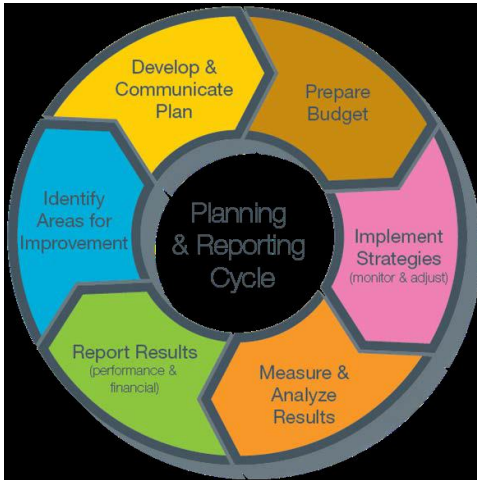

The Board approved the Education Plan for 3 years on May 31, 2024.

Board Chair - Alice Simmons

Cochrane Valley Montessori School

The CVMS Board has planned for educational growth and implementation in this year's Educational Assurance Plan using the information deemed from previous Annual Educational Results Reports as well as for the three years commencing September 1, 2023 for Cochrane Valley Montessori School. CVMS is following the guiding principals of the new [Assurance Framework](#) of Alberta Education. It is committed to implementing the strategies contained within, to continue and improve student learning and results.

School Authority Planning & Reporting

Insights from Results Interpretations

Based on the data collected from both local measures, CVMS has identified new areas for improvement as well as previous Education Plan outcomes that should continue to be developed.

CVMS continues to work toward a higher level of satisfaction amongst parents and teachers in the areas of Community and Parent Communication and Second Language (Spanish), based on overall satisfaction.

Results over the past years have demonstrated that parents want to become even more engaged in school life through PAC generated activities and curricular events, and CVMS intends to work towards targeting new ways of engaging and informing families and other stakeholders in key areas.

Through anecdotal feedback and survey results, there is a notably a demand for our early years space creation of a larger facility. With increasing numbers of enrolment inquiries at the primary level, CVMS is committed to expanding enrolment capacity through the acquisition of additional space thus keeping sustainability.

Results from the Early Years Evaluation reports (EYE) and the Early Years Literacy & Numeracy Assessments reported in the 2022/2023 AERR indicated that most students are meeting or exceeding grade level expectations and CVMS is committed to sustaining high achievement and providing robust support for those students at-risk. Based on survey results and further input with staff, it was decided to balance Montessori professional development with whole staff growth, aligning with evolving initiatives and priorities outlined in our Education Plan.

Profile of our School Authority

CVMS is a not-for-profit independent school offering junior kindergarten, kindergarten and elementary programs, inclusive education for special needs students and an out of school care program upon request.

Currently, our school comprises 24 pre-kindergarten children and kindergarten children and 10 elementary students in grades one through six. At the pre-kindergarten level, the children are team taught by a Montessori guide (teacher) and a Montessori trained/ABEd certificated teacher. The elementary classroom is led by teaching team of a Montessori guide/AB certificated teacher. The preschool and kindergarten classroom environments are conducted in English. All CVMS classrooms consist of multi-age groupings in three-year spans; three, four and five-year-old children and six through twelve-year old children. As we now have an extended day child services licence, some of our 3 and 4 year olds attend a minimum of 3 half days per week, all the way up to 5 full day per week. Early intervention for preschool is very important to us and we have worked hard to provide parents the flexibility even in our small-town rural environment.

Dr. Maria Montessori's learning philosophy along with her standards for the prepared environment and materials that are engineered with built-in error for the children to learn from, are the foundational basis of the Montessori approach to education. In addition, the Kindergarten Program of Studies and the Alberta Education Program of Studies are fully integrated into the CVMS program.

The Cochrane Valley Montessori School staff participate in annual professional development with Montessori trainers.

Montessori education focuses on developing responsibility, independence, resiliency, critical thinking, exploratory learning, collaboration, respect, problem solving, engagement, intrinsic satisfaction, and a love of learning for life.

Foundation Statements

MISSION

To provide an authentic, affordable Montessori experience for Rockyview and Cochrane Area children and their families.

VISION

Cochrane Valley Montessori is dedicated to offering conditions for learning that will assist our students to develop the knowledge, skills and attitudes that will enable them to become self-confident, caring citizens of the world. We do this by providing an educational experience based on sound Montessori philosophy, through which students are encouraged to reach their highest potential as they grow in respect for themselves, others and our earth.

PRINCIPALS AND BELIEFS

CVMS wholeheartedly embraces the educational method and philosophy developed by Dr. Maria Montessori. We believe that all children possess an intellectual and creative potential, a drive to learn, and the ability to be self-directed. We believe fundamentally that children explore for themselves – it is the role of teachers and schools to offer the appropriate classroom environments, social conditions, curriculum and guidance to support their optimal development as they learn. We believe that our students will leave our school empowered with the knowledge, skills and attitudes that will benefit our province, indeed our world, as we seek solutions to the complexities of life in the 21st century. Research on children educated in Montessori environments demonstrates that they take the lessons learned in their formative years with them as adults into the world: independence, self-confidence, self-motivation, and responsible citizenship.

Distinguishing Features of a Montessori Program

An authentic Montessori program is characterized by the following traits:

- Classes are multi-aged, multi-graded heterogeneous groupings of students based on planes of development: Casa for ages 3 - 6; Lower Elementary for ages 6-9/Grades 1-3; Upper Elementary for ages 9-12/Grades 4-6 or where enrollment dictates, ages 6-12 combined.
- Guides with accredited training in the Montessori philosophy and methodology appropriate to the age level of the students, work with their students for 3 and 6 years.
- A diverse set of Montessori learning materials, activities and experiences guide discovery and foster physical, intellectual, creative and social independence.
- A prepared environment encourages intrinsic motivation, spontaneous activity and self-directed learning. The environment engages and supports the child.
- Students are met at their individual skill levels, presented appropriate lessons, and given time to practice and reinforce concepts. Once mastery is achieved and the student has felt success, the child is eager for the challenge of the next level.
- Our classroom atmospheres encourage social interaction for cooperative learning, peer teaching and emotional development.

- Instruction is not divided into specific time frames associated with a particular subject area or activity, rather taught in an integrated fashion. Our cosmic curriculum emphasizes study of the whole, then its parts, helping a child find connections and relationships in their world.
- Curriculum emphasizes peace education and care of the environment as part of understanding our place in the world and creating responsible citizens.
- The daily schedule allows large blocks of time to problem solve, observe and understand interactions and connections in knowledge and to create new ideas.
- Schools demonstrate respect for the child through policies and actions.

Accreditation

Cochrane Valley Montessori will strive to provide an authentic Montessori experience that remains affordable and accessible to children from diverse family backgrounds.

The philosophy and curriculum of Cochrane Valley Montessori School is firmly rooted in the Montessori Method as established by Dr. Maria Montessori. Our school strives to hire faculty with an Alberta Teaching Certificate and MACTE accredited Montessori training.

As an ECS operator and an Accredited Funded Private School, we follow the Alberta Program of Studies using our Montessori methodology.

It is an ongoing expectation of Cochrane Valley Montessori to maintain both Montessori and Government of Alberta accreditation.

Stakeholder Engagement

Stakeholders including but not limited to, staff, parents, students, the Board of Directors and community partners, were engaged in the development of this Education Plan.

The annual Alberta Education Assurance (AEA) survey is sent to CVMS teachers as well as students and parents for those in Grades 4 and above, and provides critical information for the reporting (AERR) and planning processes.

CVMS's annual local survey is sent to parents and staff and is intended to both supplement results from the AEA survey as well as provide feedback and data for local priorities and school-level initiatives.

Teachers are further engaged through ongoing dialogues at staff meetings throughout the year. Teacher focus groups in 2023/2024 contributed to analysing results, identifying outcomes and developing short- and long-term strategies.

The Board of Directors at Cochrane Valley Montessori School supports strategic planning by providing input and guidance to our principal. Working together with the principal, the Board develops CVMS's annual budget and ensures alignment between the Education Plan and budget considerations.

The AERR and survey results are presented and reviewed at Parent Advisory Council (PAC) meetings, for the purpose of soliciting feedback and garnering input, thereby gaining valuable information for the planning process.

Montessori's administrative team, alongside the Board of Directors have continued collaborating with our landlord to secure the empty 2600 square foot space adjacent to our existing facility.

Trends and Issues

Marketing For Students - A continuing role for our school is to educate the people of our community as to the purpose of our school. As recognition of our presence, our enrollment has grown steadily. Families are learning that they now have an educational choice within our local community, which is a mandate across our province.

Staffing – CVMS is committed to staffing for both Montessori trained teachers as well as Alberta Teaching Certificated educators. As we continue to grow and respond to ensuring a professional learning community that supports Montessori pedagogy and Alberta Education curricula, we are responding to continue to balance enrolment and new staff to ensure expertise and quality in both areas. We ensure our new staff are aware of the need to continue their professional development so that their knowledge of our Montessori values and beliefs are current with our methodology and at the same time, we update our staff regardless of their expertise in the expectations of our society with regards to Alberta Education.

Ensuring professional development – To ensure a currency of knowledge in response to Truth and Reconciliation, as well as to respond effectively to the future changes to curriculum implementation, we are working to ensure our staff have the opportunity to develop specific competencies. Our teaching staff are continually altering and drafting alignments outlining Montessori curricula to Alberta Education kindergarten programs of study and Alberta Programs of Study. We continue to retain our alignments as a resource to help guide our work and aid in articulating professional development needs. As the new kindergarten and elementary curricula are added to, we are striving to review and document the changes from the old curriculum to the new expectations. Our parent education this next year will help our parents to understand what the changes are and how we intend to strategize for the outcomes.

Engagement:

Parent Advisory council (PAC) engage with CVMS providing opportunities for dialogue around school operation, school plans and budget, as well as ongoing dialogue regarding student growth and achievement. This next year, we will continue to work to have blended in person and on-line meetings with our PAC group to help us with input from parent stakeholders.

Anecdotal conversations help us as staff to be able to gain a rapport with our parent and family community. We speak to parents daily at the door and out on the sidewalk when greeting students.

Parent Education nights/ Student led conferences are essential to a Montessori setting. Since, in many cases, we are guiding children very differently to the way in which parents were educated, we strive to teach parents in the same manner that their children are being taught. We spend these subject area nights, setting out materials on tables and doing lessons so that parents can become the children and they begin to see how the materials work from the adult frame of reference. Student-led conferences give our parents an opportunity to be taught by their child. The child sets up the plan of the concepts and materials that they will use to teach their parents as the children become masters of the work when they teach it to someone else. We are now doing all in person parent education and student lead conferences.

Teacher/ Parent collaborative conversations that bring together staff and parents around a strategic topic. Feedback from the conversation helps to inform next steps in support of students. Examples of recent topics include: curriculum, literacy and numeracy intervention, student enrolment and facility sustainability for alternative solar energy. AS these topics are on-going and through our PAC initiatives, we hope to have more green initiatives placed into our building as well as the space for outdoor programming and community gardening in front of the building.

Inclusive Education consultations: These consultations are composed of families, staff and community members, providing ongoing feedback to help inform the delivery of inclusive education in our school. We have partnered with Association of Independent Schools and Colleges of Alberta (AISCA) on a program called Expanding Capacity and Learner Supports (ECLS) to help with Occupational and Physical Therapy supports for our younger children. Professionals from Renfrew are helping us to build capacity in our teachers so they can continue the work towards targeted children in the future.

Elementary classroom meetings are a student group meeting where there is a secretary and a meeting chair. There is a journal in the classroom where students can add to the agenda for that weekly group meeting. They can include both beefs and bouquets. For any beefs, our classroom chair will ask for ideas from the group as to how to solve a problem and then a vote is taken on the best one. Students have a way of giving their voice to situations as well as allowing their voice to be heard towards solutions.

Spanish as a Second language is a program that is now in full swing. It has been extremely exciting to have both Spanish as a second language as well as Spanish speaking families among our enrollments. We will continue to offer this program as families have been excited to have a second language as part of our program.

Cochrane Community Historical context work-Cochrane Cattleman's Historical Association. Cochrane Valley Montessori staff and parents were concerned that their children need to have more history of their own community within the programming. So, we are in our second year of teaming with this organization here in Cochrane to have them help us research and guide us through not only the artifacts within the museum but the artifactual buildings within our town. Our children are researching and partnering to work with the new visitor center in Cochrane to service the historical aspect of and studying when Cochrane first became a town. There is such a wealth of information from our local Seniors on the Bow organization that help us with family stories to further our research and learning material making. We have now collected 4 books on Cochrane family histories as well as Cochrane historical maps and contemporary aerial maps for our elementary classroom that continue to provide context for community research and learning.

Outcome One: CVMS students will demonstrate growth in literacy and numeracy.

Outcome: Continued student success will set our program on a path towards improvement in student learning, student goal setting and directions for student accountability in learning.

Comments: The Montessori curriculum helps build human connections and an understanding that we are all interconnected and interdependent. Students learn and explore the world and all its people historically through to present day as well as understand the changes our world has been presented with. This helps to build gratitude and a sense of wonder for all that humankind has discovered and created, and for all that we continue to discover and create.

While our teachers guide the curriculum and instruction offered, children in our Montessori classrooms have the primary responsibility for their learning. Within the weekly meetings and discussions with students from their various work portfolios, goals for their work are discussed with students and the guides follow up with students as to the agreed upon goals and timelines.

Strategies:

Continue engaging students with Montessori lessons and hands-on Math and Language manipulatives.

- Targeted literacy instruction groups will be introduced in consultation with Speech-Language Pathologists partnered with CVMS
- Jerry John's Benchmark Assessments will provide information about student progress and needs at all grade levels
- Home reading program and use of RAZ kids will be continued as a school-wide literacy initiative
- Whole school events such as a non-competitive math fair and 100th day of school celebration will be established to engage and challenge students in mathematics
- The incorporation of real-world math applications and STEM inquiry opportunities within classroom routines
- Remedial support in formation of letters in the early years will be emphasized for students with identified need using Handwriting Without Tears

Measures: Student Growth and Achievement;

Provincial Measures

Student Learning: Our intention is to participate and complete the student learning assessment (SLA) Grade 3 and provincial achievement tests (PAT) Grade 6 from Alberta Education during the year 2024-2025 should our enrollments warrant it for those grade levels.

Local Measures

Required assessments, including:

- Provincial Literacy & Numeracy Screening Assessments for 1-3
- EYE-DA,TA
- Jerry John's Benchmark Assessment Systems
- AEA survey results

For the 2024-2025 school year we will also look at using the CC3 from the University of Alberta to look at the gaps in children's learning. This initiative gives us the information we will plan for its use to assess and relieve towards gaps in children's learning.

Classroom measures

In addition to the grade 3 and 6 assessments, at the elementary level, we will also assess for success in literacy using the new Jerry Johns Reading Assessment, Diagnostic Writing Assessments (DWA). Using the Fountas & Pinnell Benchmark Assessment System (BAS) literacy assessment tool to determine student literacy levels and inform interventions monitoring for growth.

In the area of numeracy, we will use the local measure of the Provincial Numeracy Screening assessment and Munroe Sherman mathematical ability assessments.

Casa ages 3,4 and kindergarten teachers as well as our elementary will align the new program of Studies with our Montessori Curricula to ensure we are meeting and exceeding the new requirements for kindergarten program of studies.

<p>Safe and Caring Learning Environments</p> <ul style="list-style-type: none"> • Maintain an intentional focus on the safety and well-being of staff and students throughout the school year. As part of our staff meetings, we will intrude a 10 minute time period to address mental wellbeing in our staff by targeting topics of wellness in the classroom. <p>Specialized Supports</p> <ul style="list-style-type: none"> • Work with school leaders and staff from Specialized Learning Supports to evaluate the delivery of services under the current funding structure. <p>Community Partnerships</p> <ul style="list-style-type: none"> • Continue to work strategically with community partners around how they can remain connected with students and families in safe and meaningful ways in classrooms for parents and stakeholders. 	<p>Citizenship: Survey results showing teachers, students and parents agreement that we model the characteristics of active citizenship.</p> <p>Student Learning Engagement: CVMS will continue to use See Sav in each classroom with statements to our teacher, parent and student agreement that students are engaged in their learning at school.</p> <ul style="list-style-type: none"> • Teaching and Leading; • Education Quality: Survey results showing Teacher, parent and student satisfaction with the overall quality of basic education. CVMS continues to demonstrate the Teacher Growth, Supervision, and Evaluation Policy, Section 1 (e), by providing information summarizing implementation of their local policy • Welcoming, Caring, Respectful, and Safe Learning Environment: Survey to provide results of teachers, parents and students agreement that learning environments are welcoming, caring, respectful and safe. We will continue to support the Kindness club and Wellness Club in each of our classrooms that is provided to us by the ECLS program on behalf of Alberta Education. The mental health and wellbeing of our children is foremost with this endeavour working through strategies of resiliency, thoughtful and kind behaviours and zones of regulation. • Access to Support & Services: Results and evaluation statements of teacher, parent and student agreement that students have access to the appropriate supports and services at school and students. Anaphylaxis is continuing to be an ongoing issue in schools and supporting children and families with good nutritional habits while still respecting others around us and their allergies are important. Our school has purchased an emergency EpiPen to have on hand for that first time emergency.
---	--

Outcome Two: First Nations, Metis and Inuit learning at CVMS is infused throughout curricular areas.

<p>Comments: Elementary students follow our Montessori cosmic curriculum focusing on the interconnectedness of all the earth's people and elements. Our appreciation for all cultures and global perspective provides students with opportunities to understand aboriginal cultures. Students and families are embraced and respected for all diversified cultural backgrounds. The child's individuality as a focal point to our program celebrates the differences among our children.</p>	
<p>Strategies</p> <p>CVMS ensures all students teachers and school leaders learn about First Nations, Inuit and Metis perspectives and experiences, treaties, agreements and the history and legacy of residential schools. Through:</p> <ul style="list-style-type: none"> • adding to our library collection of FNMI literature •continue to be ensuring all our staff have adequate opportunity to enhance background knowledge. •Continuing to build on our folder within our staff resources on Indigenous information links, pictures and resources within our CVMS extranet. •staff and students to participating in the specialty weeks to learn more about the current and historical contexts •networking with elder leaders .ie: Metis week, Indigenous peoples week. Continuing the practise of inviting an elder into the classroom to expand on the work created in the classroom. •continue to contribute to the elementary Canadian History timeline adding in the details on the First Nations, Metis and Inuit history in Canada and Alberta • ensuring the use of Indigenous authors in the classroom (books, videos...etc.) 	<p>Measures</p> <ul style="list-style-type: none"> • Alberta Education Accountability Pillar <p>Local Measures</p> <ul style="list-style-type: none"> • Stakeholder voice (survey): families, students, staff <p>Parent education night to help our parent group and stakeholders understand the FNMI culture additions to the new curriculum in all the areas where we see it has been added.</p>

Outcome Three: CVMS will continue to provide professional learning opportunities.

<p>Outcome: CVMS will provide welcoming, high quality, learning and working environments towards meeting the needs of each student.</p> <p>Comments: CVMS is committed to pursuing connections and relationships with post-secondary institutes, including Universities and Montessori teacher-training institutes. We are committed to furthering the professional growth of our teachers. We are also interested in developing the Montessori knowledge and insight within the Calgary and surrounding area.</p>	
<p>Strategies:</p> <ul style="list-style-type: none"> •teachers complete yearly Teacher Professional Growth Plans to facilitate ongoing development in their knowledge, skills and attitudes as professional teachers. •teachers will engage in Professional Development that develops their professional knowledge in relation to current best practices in education. A minimum of three Professional Development days have been set aside in our school calendar for this purpose. Teachers are encouraged to participate in individual opportunities to expand their knowledge through financial and time assistance from the school. •participation in teacher’s convention each year for all our staff and our school provides funds for our teachers and support staff to participate. •teachers offer curriculum that presents the Alberta Program of Studies in a very meaningful, contextualized way, using the Montessori lessons as the framework. These lessons present all learning from the ‘big picture’; global perspective first, then proceed to examine the ‘parts’, always returning to the view of the ‘whole’. The spiral offers an effective metaphorical image of the Montessori approach to learning: concepts are presented from whole to part to whole. •CVMS administration is committed to supporting guides, teachers and assistants in their classroom planning and personal professional development. The administration ensures that all guides access the resources/supports they require for each Montessori child to experience success. •regular staff meetings between the administration and guides/teachers are held. Meetings include the development of a Teacher Professional Growth Plan (TPGP) which is followed up and reviewed each term. •teaching faculty demonstrate the Alberta Teaching Quality Standards and expectations are reviewed each year with staff in relation to their TPGP 	<p>Measures</p> <p>Alberta Education Accountability Pillar Child Services Survey on early learning and course accreditation for 3,4-, and 5-year-old Montessori re-accreditation for level 2 and 3 certifications.</p> <p>Local Measures</p> <ul style="list-style-type: none"> • Feedback Survey • Teacher focus groups <ul style="list-style-type: none"> •continue to reach out to other Montessori colleagues cross the province for dialogue in a professional Learning Community for Montessori around the new curriculum and how it relates to what we know in our Montessori areas of learning. • create a professional library of new materials that could be made and introduced into our kindergarten and elementary classrooms to facilitate the introduction of the new curriculum strategically with emphasis on the outcomes presented in the new program of studies.

Outcome Four: CVMS will enhance engagement with families and stakeholders to ensure participation and investment in the CVMS community.

<p>Comments</p> <p>CVMS will work to engage parents and stakeholders to be active within the school.</p> <p>CVMS has a Board of Directors comprised of a diverse representation of program colleagues and community members-at-large committed to Montessori education. In addition, the principal has a non-voting position on the CVMS Board.</p> <p>Strategies: The prepared Montessori classroom environments at Cochrane Valley Montessori helps foster both a belief in and the practice of social skills that affirm the importance of caring for others, learning respect for others, and being treated fairly at school.</p> <ul style="list-style-type: none"> •policies and procedures are in place relating to school safety, health and safety, student code of conduct and an inclusive learning environment. <p>Practical life lessons at the Casa, Kindergarten and Elementary levels demonstrate and allow children opportunities to learn social skills related to grace and courtesy, respect for others, peace education, and conflict resolution.</p> <ul style="list-style-type: none"> •have instituted signing-in and signing-out procedures for all visitors to the school. •Board members and Parent Society will possibly participate in a social evening to enhance cooperation and engagement at school. Thus, there will be a continual sharing of information are between all the stakeholders at CVMS: shareholders, the Board of Directors, and the Parent Society. •parents at CVMS are welcome to observe in their child’s classroom, participate in elementary student led conferences- in-person going forward- throughout the year with their child and help with any “off site” field trips or elementary “going outs” •CVMS will institute events such as Be Our Guest days, Winter Carnival and end of year whole School Picnic and continue to plan for Kindergarten CommuniTEA, and whole school music performances 	<p>Measures</p> <p>Alberta Education Accountability Pillar</p> <p>Local measures</p> <ul style="list-style-type: none"> • School Feedback Survey • Stakeholder voice: families, students, staff
--	---

Outcome Five: CVMS will enhance the additional space attained to provide new spaces for learning.

<p>Comments</p> <p>CVMS has secure additional space adjacent to our existing facility with the goal of enrollment growth</p> <p>Strategies:</p> <ul style="list-style-type: none">•CVMS will continue to collaborate with the Cochrane Station condominium board and the Town of Cochrane on the use of the adjacent space and future growth•CVMS's Board of Directors have considered financial implications for all possibilities in budget and strategic planning moving forward and will accommodate to expenditure necessary for a year of transition in enrolment growth.	<p>Measures</p> <p>Alberta Education Accountability Pillar</p> <p>Local measures</p> <ul style="list-style-type: none">• School Feedback Survey• Stakeholder voice: families, students, staff
---	--

IMPLEMENTATION PLAN

1. The key strategies in the 3YEP are implemented throughout our school and are reported on in the Annual Education Results Report (AERR) as part of the planning and reporting cycle. These strategies are informed by the current CVMS AERR located on our website along with ongoing engagement with students, families and stakeholders. These plans are focused on supporting student success and have been developed around this 3-year education plan.
2. This year we will continue to plan and create a timeline to help with implementing the strategies for the outcomes in each area as well as create consistent ways to help support our AERR from our 3 year plan and the timeline for implementation of ways to gain the measures at different times of the year.
3. Engagement with stakeholders remains a key means of gathering feedback and the CVMS is committed to continuing to seek the voice of parents, staff, students, and community.
4. Additionally, during 2023-24, CVMS will continue to place the support of our students as a priority.

Parental Involvement

CVMS is a small school by design. The Parent Advisory Committee (PAC) contribute via consultation and special events planning for the school.

There is continued sharing of information between all stakeholders at CVMS including the administration, guides/teachers and assistants, the Board of Directors, parents, and students.

Parent Advisory Committee (PAC) Involvement

Information about plans, goals, outcomes, and programs at CVMS is shared regularly during monthly PAC meetings. Through an electronic newsletter, classroom communication, website, online discussion pages, parent information meetings/presentations, parent education evenings as well as informal and ongoing communication, information is shared and discussed throughout the school year.

The PAC is provided information by the administration regarding the direction the school is taking. This includes the future Provincial Achievement test results, school planning and stakeholder initiatives, professional development plans, budget implications and new provincial requirements and initiatives. Parent questions are answered verbally and/or in print form.

Timelines and Communication

CVMS Board of Directors approved the school's Three-Year Education Plan May 31, 2024. It will be reviewed through the year and approved once again in November 2024 as a process towards the AERR document.

This document is available to parents via our school website as well as upon request.

Members of the public have access to the Three-Year Education Plan on the [Policies](#) page of the school's [website](#)

2024-2025 Budget

A summary of the CVMS 2024-2025 Budget can be accessed on the [Policies](#) page of our [website](#).
